NARRATIVE REPORT

WHILE DRIVING ALONG THE ALTON BY-PASS THE INFORMANT SAW AN OBJECT THAT LOOKED LIKE A CANDLED PARACHUTE IN THE SKY. IT WAS WHITE AND TINTED PINK AS IF REFLECTING THE SETTING SUN. THE INFORMANT STOPPED HIS CAR AND CONTINUED TO OBSERVE THE OBJECT THROUGH BINOCULARS. WITH THE GREATER MAGNIFICATION IT LOOKED LIKE A CAPITAL LETTER U (UNIFORM) INCLINED TO THE RIGHT BY ABOUT 10 TO 15 DEGREES. THE UPRIGHTS OF THE U WERE FAINTER THAN THE BASE, RATHER LIKE A COMET WITH TWO CURVED TAILS. THE OBJECT DRIFTED SLOWLY AWAY BECOMING DARKER AND SLOWLY ROTATED ANTICLOCKWISE BY 90 DEG. IT DISAPPEARED OVER THE HORIZON BEHIND SOME TREES ABOUT 20 MILES AWAY ALWAYS REMAINING BETWEEN THE DIRECTION OF THE MOON AND THE SETTING SUN. JUST AFTER IT HAD GONE OUT OF SIGHT A PAIR OF SIMILAR OBJECTS

PAGE 3 #BDOXT 006 UNCLAS

BACK ON A RECIPROCAL TRACK FROM OVER THE HORIZON. ONE TURNED SOUTH AND CONTACT WAS LOST WHILE OBSERVING THE OTHER WHICH CONTINUED TOWARDS THE OBSERVER THEN SLOWED DOWN AND HUNG IN THE SKY PERFORMING LAZY S-TURNS LEAVING A VERY FAINT TRAIL. IT THEN DRIFTED AWAY TOWARDS THE HORIZON AND BECAME DIFFICULT TO SEE IN THE POOR LIGHT. A POLICE MOTOR CYCLIST NAME [REDACTED] BASED AT ALTON SUB DIVISION ALDERSHOT DIVISION HAMPSHIRE. STATION CONTACTED PC [REDACTED] ON LEAVE UNTIL 25 DEC 82. REQUEST THAT HE CONTACTS THIS OFFICE

REPORT OF AN UNIDENTIFIED FLYING OBJECT

A. Date, Time and Duration of Sightings. (Local Times to be Quoted)

25 OCT 82 1815-1830 1 MINUTE APX

B. Description of Object. (Number of objects, size, shape, colours, brightness, sound, smell etc).

ONE OBJECT. THREE BRILLIANT RED LIGHTS IN HORIZONTAL LINE 20 FEET APART, MIDDLE ONE SLIGHTLY LOWER AND FLASHING. NO NOISE WHATSOEVER. LIGHTS REMAINED IN SAME ASPECT AND RELATIVE POSITION THROUGHOUT SIGHTING.

C. Exact Position Observer. (Geographical location. Indoors or outdoors. Stationary or moving).

5331⁰N 0040W OUTDOORS MOVING NORTH IN CAR ON FIRST SIGHTING THEN STATIONARY

D. How Observed. (Naked eye, binoculars, other optical device, still or movie camera).

NAKED EYE

E. Direction in which Object was First Seen. (A landmark may be more useful than a badly estimated bearing).

NORTH OF OBSERVER

F. Angle of Sight. (Estimated heights are unreliable).

45° (WITNESS ESTIMATES 100' ABOVE HOUSES)

G. Distance. (By reference to a known landmark wherever possible).

1/4 - 1/2 MILE

H. Movements. (Changes in E, F and G may be of more use than estimates of course and speed).

APPARENTLY MOVING SOUTH TOWARDS OBSERVER (APPROX STATIONARY) THEN TURNED TO WEST GOING VERY FAST ("JET FIGHTER SPEED") DESCENDING BELOW LEVEL OF HOUSES WHEN LAST SEEN

I. Meteorological Conditions during Observations. (Moving clouds, haze, etc).

CLEAR STARRY NIGHT

- 3 NOV 1982

5/11

J. Nearby Objects. (Telephone lines; high voltage lines; reservoir, lake swamp or marsh; river; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields; generating plant; factories, pits or other sites with flood-lights or other night lighting).

Dear [Redacted]

I have been advised that I should direct my enquiries about Unidentified Flying Objects (UFOs) to you.

Since January this year, as a civilian researcher, I have been permitted the first civilian direct review of the Royal Australian Air Force (RAAF) files on UFOs at the Russell Offices of the Australian Department of Defence in Canberra.

I have examined their extant files which cover the period from 1955 to 1982. This file review can be confirmed with Group [Redacted] Director of Air Force Intelligence and Security and the DAFI Intelligence Liaison Officer, [Redacted] with whom I have dealt directly.

The purpose of this letter is two-fold:

(1) To finalise my study I wish to understand the involvement of overseas countries on an official basis in investigating UFO sightings.

I would like to be advised of the extent and nature of MOD's file holdings on UFOs.

Do you have a yearly breakdown of reports recieved along with an indication of the number of unexplained cases each year?

Is MOD's approach to investigating UFO sightings merely to evaluate whether a security threat is apparent or does MOD take investigations further, perhaps to determine whether any body of "unexplained" reports constitute patterned data suggestive of unidentified and/or superiour technology?

Would it be possible to recieve copies of examples of the range of reports you recieve that MOD class as unexplained? I would only be interested in a few reports to compare with the type of reports evaluated as "unknown" by the RAAF. I appreciate that such reports would need to have the names and addresses of witnesses deleted.

(2) In 1954, a [Redacted] then a member of the Physics Department of the Melbourne University, Victoria, Australia, studied the then available DAFI UFO files. [Redacted]

[Redacted], a unit of the British Commonwealth Scientific Office located at Africa House, Kingsway, London. [Redacted]

Section of the Joint Intelligence Bureau (now JIO - Joint Intelligence Organisation). From this position [S 40] was again allowed to examine DAFI (Directorate of Air Force Intelligence) UFO files. [S 40]

[S 40] I would be most interested if [S 40] is known to MOD either directly or through his [S 40]

[S 40] is known to you I would be most appreciative if you could put him in contact with me.

I do hope that you will give my requests serious consideration and I take this opportunity to thank you for your most valuable time.

Yours faithfully, [S 40]

UFO INCIDENT 19 OCT 82

1. We spoke reference the UFO incident which occurred on 19 Oct 82, when a USAF aircraft flying in the Eastern Mediterranean to the south of Cyprus reported an unidentified aircraft flying alongside. The incident was monitored by 280 SU and we have now received film of the 280 SU radar pictures and the tape on which radio transmissions were recorded.
2. We have very little to add to the information which is on the film and tape. However, you will wish to know that two USN F14 aircraft were launched from a carrier and an RAF Phantom, which was on a night flying exercise, were sent to assist. None of these three aircraft reported seeing the "UFO", nor was it seen on any ground or seaborne radar, including at 280 SU. We have a strong suspicion that the "UFO" was a mirage effect from lights on the coast of Israel or Lebanon.
3. We are arranging for a transcript to be made of the tape recording and will let you have both the transcript and the tape as soon as possible. We attach the film taken at 280 SU.
4. The US authorities wish to have copies of any reports which might result from your studies. We will arrange for them to receive a copy of the voice transcript.

UNIDENTIFIED FLYING OBJECT. MESSAGE GWENT CONSTABULARY 150545Z OCT 82
A. 150325A OCT 82, 5 MINUTES

B. 2 ROUND, BRIGHT LIGHTS, BOTH PULSATING SLIGHTLY, 1 TO THE NORTH AND 1 TO SOUTH OF NEWPORT. BOTH LIGHTS WERE BRIGHTER THAN THE STARS AND APPEARED TO BE LOW IN THE SKY. THE OBJECT TO THE SOUTH HAD A RED AND GREEN LIGHT ON EITHER SIDE OF IT, BOTH OF THESE LIGHTS WERE FLASHING BOTH WHITE OBJECTS REMAINED STATIONARY. AFTER A WHILE THE RED LIGHT MOVED AWAY FROM SOUTHERLY WHITE OBJECT AND SLOWLY TOWARDS NORTHERLY OBJECT. THE RED LIGHT CEASED TO FLASH AND BECAME A STEADY RED GLOW WHICH GRADUALLY FADED OUT INTO THE CLOUD WHEN IT WAS ABOUT HALFWAY BETWEEN THE WHITE OBJECT. THERE WAS NO SOUND COMING FROM EITHER OBJECT. BOTH WHITE LIGHTS GRADUALLY FADED AWAY AFTER ABOUT 5 MINUTES

PUBLICATION OF UFO REPORTS

1. As you are probably aware, ^aGovernment spokesman in the House of Lords (on his own initiative I may add) told their Lordships on 7 April that there was no reason why they should not see the UFO reports received by the MOD. If we comply with this statement (and we cannot simply refuse without encouraging certain well known myths), then it is inevitable that the content of our reports will soon be widely disseminated owing to the close links which many UFO societies maintain with various noble lords.

2. It seems to me therefore that if we are going to put UFO reports in the House of Lords library, we may as well make them generally available. There are a number of ways in which this could be done, for example

- a. Publish reports as received, ensuring that they are all in the common format and that names/addresses have been deleted.
- b. Publish all the reports for each month in a single batch, having taken the appropriate precautions.
- c. Publish an annual UFO report containing an analysis of data received - frequency, distribution etc.

The first proposal entails the risk that ufologists will descend upon the place with the 'latest sightings'; the last a lot of additional work. I am therefore inclined to favour the second proposal; we need not feel obliged to supply anything more than raw data, while the data supplied will be too old to cause too much trouble. Our public line on what we do with the reports would remain as present.

3. If we are to publish these reports, I believe we should charge for them a sum representing the cost, primarily labour, of preparing them for publication. We will be contacting GF3 separately on this matter.

4. I should be grateful for your views on these suggestions by the end of this month.

5. (For DI55b and Ops(GE)2) I am sure that I am not the only person to note the sharp fall in the number of UFO reports received since the beginning of the Falklands dispute. I have received one letter claiming that large numbers of UFOs have been seen in the vicinity of the Task Force - presumably little green men in ponchos.

UFOs - ITALIAN REQUEST

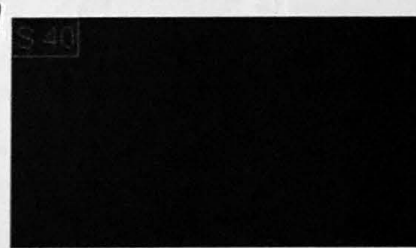

scj/

1. Attached is a letter recently received from the Italian Embassy. It is largely/explanatory, though it makes one wonder what our allies get up to.
2. Obviously a 5-day visit would be vastly excessive - one day should be enough (unless you intend to reveal any dark secrets which you have kept hidden from DS8). This obviously raises the question of whether the visit would be worthwhile but that is for the Italians to judge.
3. Please let me know whether there are any reasons why we should not meet our Italian 'counterparts' and whether you would wish to be involved in the discussion.
4. Incidentally, I have assumed that the Italians propose to come here. We could, however, offer to go there (Rome in early October would not be too unpleasant). In fact if we are to keep pace with developments on this clearly fast moving field we really ought to arrange to visit our colleagues in Paris - and indeed the other NATO capitals. An international conference or symposium would also be useful - Venice perhaps would be a suitable location.

Why not, indeed?!

10 Jun 82

[REDACTED]
MINISTRY OF DEFENCE.
Main Building,
Whitehall, London S.W.1.

7th June, 1982.

Dear Sir,

MOD/Italy has recently updated the Department responsible for the research and compilation of data (data analysis, aerial photographs and general safety measures) relating to UFOs (Unidentified Flying Objects).

Following a successful and fruitful meeting last year, by two Italian officers, with the French authorities, it would be of immense assistance if such a meeting could be arranged with the British counterparts, military and/or civilian to discuss salient organizational points in the UFO sector.

[REDACTED] the officers concerned, would be able to attend a meeting, of approximately five days' duration, in the period 1 - 15 October 1982.

I take this opportunity of thanking you for your assistance in this matter and look forward to receiving a favourable reply for onward transmission to my Authorities in Rome.

[REDACTED]
Assistant Air Attaché

Dear Sir Anthony,

Since 1952 I have spent considerably
time and effort and money in following up something
which happened to me all that time ago and as yet
the situation is just the same, in that the M.O.D
and its security services, most of which I am
fully acquainted with, persist in stonewalling me or
giving me the same old very childish replies & letters.

In 1952 I was with the military on
a South China posting, and it was during the Summer
of 52 that our whole defensive area was buzzed by a
very large UFO which made several deliberate passes
Some fast some slow and at times it was no more
than 50 ft off the deck, and it went off by shooting
straight up to the zenith at a speed the R.A.F
estimated to be 600 mph, and it never came back. Its
shape was like a doughnut, its diameter perhaps 60 ft -
could have been more, it made no noise, the top section

was a pulsating white-silver brilliant light and the honey
area had square lights around it which flashed in some kind
of sequence and this area seemed to be rotating quite fast
on quick passes over the base, but on slower passes the rotation
was much slower. - The weather conditions were clear
skies and sunshine. The R.A.F. said they had seen no
aircraft in the area at the time, and it was on their
radar, and the incident had been recorded on station
records.

Fortunately, or so I thought at the time it all
happened, all the important people at the base said they
had seen it, and I had my list of names and addresses
of witnesses, but when I returned to England and started
writing letters to the senior people in the department
of defence they got extremely testy with me, and
~~so~~ I had to think very carefully before my next
approach.

I am quite certain where records are kept of
UFO sightings in this country, incidents is a better word
because it's the serious side to these things which interest
the Security Service of governments, UFO landings, and
mental control on people, physical assault by beings
humanoid or robot, blood being taken, sexual advances
being made, semen taken, and ovaries from women, people
left to die from the experience, people carried off in
view of witnesses, and certainly never returned. Some
burned by unknown forms of rays, they take cattle, mice
to know some like beef, but they are taking other
forms of protein which pose a very serious threat.

Recently I heard from a scientist with

N.A.S.A on the D/Space Mission Control that there is ample evidence now that there are perhaps as many as a dozen different lots which are effecting high concentration landing reports, and these incidents, observations clearly show that these different lots are never seen in association with each other. The evidence which N.A.S.A is collecting states that there is a power struggle between these groups to control homospere.

I am quite sure governments of responsible countries including ours, know enough about UFOs, some of them, how they function, and I am told privately by someone, ~~they~~ someone who is very high up in government, says this country has under its strictest security, more than one crashed UFO and several preserved bodies of the crews, and we have secret highly trained crews to fly out at a moment's notice to a suspected UFO crash site to secure the area and cover up the evidence.

The Company I.B.M are at the moment still trying to crack the operating code of a recently crashed vehicle, and this is at C.I.A., Langley Field Virginia, and it was very difficult to cut into the metal to get inside, and the condition of it otherwise is said to be quite intact, but there is no report of dead or alive crew.

Many motives have been ascribed to the senders or occupants of UFOs, mostly concerned with attack and exploitation, reconnaissance for conquest, capture of human specimens or planned future occupation of the earth, all of which mirror our own images of how we would react in their place. But, possibly because of the danger we represent to ourselves and our surroundings, there may

be another explanation. Perhaps what we call UFOs are part of a design - or message - whose meaning may become clear to us, one hopes, while there is still time.

Since 1952 I never saw another UFO until three years ago, my wife was with me and saw it too, and so did our neighbours. The sky was clear and it was summer, and the thing was tubular, (cigar shape), and it hovered for some while before jumping all around the sky with blinking almost blue white light, and I ran to my phone to dial the Duty room at Northwood, I know the number because I was attached to N.D.-70 in recent years, and they said they were searching the area, and would get back to me, and I put the phone down and ran back to where my wife was standing, but it had gone she said in a northerly direction, and later the Duty Officer called me from Northwood to say he could not confirm it, and when I pressed him on the matter, he said even if they knew it was there, they would still not confirm it for me. I think it's because he was French that he went that far.

I am sure you can understand my irritation at getting nowhere with the Ministry of Defence people in the past 30 years, and after all, I am a responsible human being who has done his bit for the country and proud to be an Englishman, and I need to know the (real) evidence which is known to all heads present and parcel of J.I.C. about what is behind UFOs, and what new technology we have developed from it.

Yours sincerely,

UFOs - ITALIAN REQUEST

Reference:

A. D/DS8/75/21 dated 10/6/82

1. At Reference you ask if there are any reasons why we should not meet Italian members of the UFO community.
2. There would seem to be no reasons why the UK should not agree to meet the Italian representatives, - we have, after all, had the UFO subject discussed in the House of Lords. Ops(GE) would not wish to be involved in the discussions.

PUBLICATION OF UFO REPORTS

Reference:

A. D/DS8/75/21 dated 14 Jun 82

1. At Reference you ask for views on the publication of UFO reports.
2. You will have guessed that I am not over the moon about such a step but if their Lordships have been told that there is no reason why reports should not be published, then it would be foolish not to agree.
3. The monthly report would seem to be the most sensible way of satisfying their Lordship's enquiries on this sort of thing.

UFOs - ITALIAN REQUEST

Reference: D/DS8/75/21 dated 10th June, 1982

1. We would be hard pushed to spend more than about five minutes on this subject let alone the five days suggested! The facts are that although all reports are treated seriously, we do no more than read and file them, taking note of incidents where there is any degree of correlation between 2 or more reports.
2. Whilst we are always prepared to help, since the Lords Debate on UFOs on 18 January 1979, we have received only one request for assistance from Ops(GE)2(RAF) in connection with their enquiries on any other than routine incidents.
3. For these reasons we would prefer not to be involved in the discussions.
